

Frostvakt 10

Self-regulating 2-conductor with screen

Usage

- For water and sewage pipes, drains and wells
- For internal and external installation
- Drinking water approved

 Self-regulating  10-20 W/m  Plug

- ☑ Energy efficient
- ☑ Type approved for drinking water
- ☑ Can be crossed during installation

Frostvakt 10 prevents damage and leaks caused by frost-burst pipes and water conduits. The heating cable has a pre-assembled plug that is easily connected to an earthed wall socket via a residual current device (RCD). Common applications include sewage pipes, water pipes and water meters in, for example, summerhouses, garages, greenhouses, caravans or boats. Controlled effectively with Frostvakt Control. The cable is PVC-free and is well suited for drinking water pipes. Type-approved for drinking water according to KIWA (approval 1289).

Specifications

Connection voltage	230 V
Length Connection cable	2,0 m
Connectors	Plug
Number of conductors	2 pcs
Bending radius, min.	35 mm
Output	10 W/m at +10°C when installing on metal pipes, 20 W/m at +10°C when installing in water
Exposure temperature (power off), max.	85 °C
Installation temperature, min.	-40 °C
Insulation material inner	EVA, LDPE
Insulation material outer	ECTFE
Cable type	Self-regulating 2-conductor with screen
Enclosure class	Plug: IP44, cable: IP68
Conductor area	0,56 mm ²
Exposure temperature (power on), max.	Up to 65 °C
Dimensions	7,3 * 5,0 mm
Protective conductor	Braided
UV resistance	Yes
