

Multimat

Heating mat for temporary heating

Usage

- For outdoor use
- Heating of e.g. stairs, entrances and work areas

 Mat  Several effects  Plug

- ✓ Robust and durable
- ✓ Flexible and adaptable
- ✓ Can be connected in series

The product is flexible because it is possible to connect several mats with the associated quick connectors. Multimat melts snow and ice effectively and creates safety in areas where there is a risk of slipping. Connection cable is purchased separately and, if necessary, also extension cables.
