

Frostvakt Control

Thermostat with external sensor

Usage

- For Frostvakt 10 & 25
- Simple and user-friendly

Plug

✓ Energy efficient

By using Frostvakt Control, you can protect from frost energy-efficiently and economically. Frostvakt Control ensures that the heat is turned on only when the ambient temperature approaches freezing point. Best used with Frostvakt 10 and 25 but also excellent for regulating other frost protection and heating products. Activation temperature +3°C. 3 m fitted sensor cable.

Specifications

Connection voltage	230 V
Colour	Grey
Load	1 Cos φ
Power consumption	< 0,4 W
Enclosure class	IP44
Operating differential	Switch-on: +3°C, switch-off +5°C
Dimensions	8,2*5,2*13 cm
